

IInd International Cardiovascular Symposium NC/ACC-University of Chile

Course Description

This symposium aims to provide a comprehensive overview of relevant and current cardiovascular topics through an interactive Case & Evidence Based format. It is directed to cardiologists, cardiac surgeons, cardiovascular fellows, internists, critical care specialists, nurses, residents and medical students. After participating in this meeting, the attendee will be able to understand and discuss the current evidence-based management of cardiovascular risk factors, coronary artery disease, heart failure, arrhythmias along with becoming familiar with the latest pharmacological, interventional and device therapies for patients with cardiovascular diseases. Also, a clinical case contest will be performed and certificate of participation will be provided. This symposium will be available for revision on a web-based format.

International Speakers

Jorge Alegria MD. Sanger Heart and Vascular Institute, Atrium Health

Mirnela Byku MD, PHD, MBA University of North Carolina

Michael Elliot MD. Sanger Heart and Vascular Institute, Atrium Health

Glen Kowalchuck MD Sanger Heart and Vascular Institute, Atrium Health

James Jollis MD. University of Duke

Hadley Wilson MD Sanger Heart and Vascular Institute, Atrium Health

Michael Gibb MD, Sanger Heart and Vascular Institute, Atrium Health

Amy Winiger RN, MSN, ACNP-BC. Sanger Heart and Vascular Institute, Atrium Health

Directors

Dr. Gastón Dussillant

Dr. Jorge Alegría

Dra. Patricia Gómez

Dr. Alejandro Dapelo

Dr. Roberto Concepción

Location

Aula Magna. Faculty of Medicine, University of Chile,

Av. Independencia 1027, Santiago, Chile

Agenda

Friday, May 3, 2019

7:30-8:20 Inscriptions

8:20-8:30 Course Inauguration

8:30-10:30 Public Health, Prevention and Cardiovascular Care Teams.

Chairman Dr. Alejandro Dapelo

8:30-8:50 A Heart Healthy Diet in 2019: Should we go Mediterranean or Plant-Based? Dr. Jorge Alegría

8:50-9:10 Dyslipidemias: Role of Statins and PCSK9 inhibitors. Dr. Juan Carlos Prieto

9:10-9:30 Hypertension: Should we all have a Blood Pressure below 120/70 mmHg. A discussion of latest guidelines. Dr. Jorge Jalil

9:30-9:50 Inveterate and relapsing smokers. Usefulness of new nicotine products for management. Dr. Sergio Bello

9:50-10:10 The Utilization of Cardiovascular Health Care Teams to Provide High Quality and Valuable Patient Care. RN Amy Winiger

10:10-10:30 Round table discussion. Moderator Dr. Alejandro Dapelo.

Participants Drs. Hernán Prat, Juan Carlos Prieto, Jorge Alegría, Jorge Jalil, Sergio Bello, RN Amy Winiger.

10:30-11:00 Coffee break

11:00-13:00 Coronary Artery Disease

Chairman Dr. Héctor Ugalde

11:00-11:20 Current Guidelines for Antiplatelet Therapies in CAD. Dr. Gastón Dussillant

11:20-11:40 PCI in STEMI: Culprit vs. Non-Culprit Vessels. Dr. Hadley Wilson

11:40-12:00 Diabetes and Coronary Artery Disease: From Prevention to the latest approaches. Dr. Fernando Florenzano

12:00-12:20 Cardiogenic Shock: Update on Current and Evolving Therapies: Dr. Hadley Wilson

12:20-12:40 Clinical Case 1. Dr. Ernesto Chaigneau

12:40-13:00 Round table discussion. Moderator Dr. Héctor Ugalde.

Participants Drs. Hadley Wilson, Fernando Florenzano, Gastón Dussillant, Ernesto Larraín, Ernesto Chaigneau.

13:00-14:30 Lunch Break

14:30-16:30 Non-invasive Cardiac Imaging

Chairman Dr. Patricia Gómez

14:30-14:50 Role of Cardiac CT in Cardiovascular Care. Dr. Cristobal Ramos

14:50-15:10 Cardiac CT and NMR in Adult Congenital Heart Diseases. Jorge Alegría

15:10-15:30 Clinical use of Cardiac MRI. Michael Elliot

15:30-15:50 Cardiac MRI in the assessment of Ischemia and Myocardial Viability: Michael Elliot

15:50-16:20 Round table discussion. Moderator Dr. Patricia Gómez.

Participants Drs. Cristobal Ramos, Jorge Alegría, Michael Elliot.

16:20-16:50 Cofee break

16:50-18:30 Valvular Heart Diseases, Hypertrophic Cardiomyopathy and Adult Congenital Heart Diseases

Chairman Dr. Marcelo Llancaqueo

16:50-17:10 Genetics and diagnostic imaging in Cardiomyopathies. Dr. Glen Kowalchuck

17:10-17:30 Clinical approach to severe Mitral Regurgitation. Dr. Jamie Jollis

17:30-17:50 Prosthetic valve endocarditis. Dr Jamie Jollis

17:50-18:10 Clinical Case 2. Dr. Alberto Barría

18:10-18:30 Round table discussion. Moderator Dr. Marcelo Llancaqueo.

Participants Drs. Angela Pino, Glen Kowalchuck, Alberto Barría, Jamie Jollis, Rodrigo Castillo.

Saturday, may 4, 2019

8:30-11:00 Heart Failure

Chairman Dr. Roberto Concepción

8:30-8:50 Heart Failure: Early diagnosis and management. Dr. Mirnela Byku

8:50 -9:10 Advanced Heart Failure Management: Common and Special Populations. Dr. Mirnela Byku

9:10-9:30 Angiotensin Receptor-Nepriylsin Inhibitors (ARNi): A Change in the Paradigm of Heart Failure Care? Dr. Douglas Greig

9:30-9:50 Hypertrophic Cardiomyopathy in 2019. Dr. Hadley Wilson

9:50-10:10 Clinical Case 3. Dr. Marcelo Llancaqueo

10:10-10:30 Round Table Discussion

10:10-10:30 Round table discussion. Moderator Dr. Roberto Concepción.

Participants Drs. Mirnela Byku, Douglas Greig, Hadley Wilson, Marcelo Llancaqueo

10:30-11:00 Coffee break

11:00-13:00 Electrophysiology

Chairman Dr. René Asenjo

11:00-11:20 Current Management of Atrial Fibrillation: Dr. Mauricio Cereceda

11:20-11:40 Direct Oral Anticoagulants for Atrial Fibrillation: Dr. Glen Kowalchuck.

11:40-12:00 Emergency Department Reversal of Anticoagulation. Dr. Michael Gibb

12:00-12:20 Management of non sustained ventricular arrhythmias (VPB, NSVT). Dr. Ismael Vergara

12:20-12:40 Device Therapies for Arrhythmias and Heart Failure: The role of CRT and AICDs. Dr. René Asenjo.

12:40-13:00 Round table discussion. Moderator Dr. René Asenjo.

Participants Drs. Mauricio Cereceda, Glen Kowalchuck, Michael Gibb, Ismael Vergara

13:00 Course closure
