---------------------	------------------------	---------------	------------------------------------

**Challenges for the management of acute coronary syndromes in Latin America: insights from Mexico and Chile.**

**Session Number: 5125**

**Organised in collaboration with the Mexican Society of Cardiology and the Chilean Society of Cardiology and Cardiovascular Surgery.**

Chairpersons: Dr. M. López Meneses (México, MX) (M).  
Dra. P. Varleta (Santiago de Chile, CL) (F).

**16:45 Socioeconomic disparities in the management of myocardial infarction in Mexico: progress and challenges.**

Dr. A. Arias-Mendoza (México, MX, F).

**17:00 Challenging gaps in the management of acute coronary syndrome: an overview of the Chilean experience.**

Dr. L. Sepúlveda Morales (Santiago de Chile, CL, M).

**17:15 Challenges for the management of acute coronary syndromes in Latin America: insights from Mexico and Chile – discussion.**

**Learning Objectives:** To learn about initiatives to improve acute coronary syndromes diagnosis and treatment in rural and urban setting, irrespectively of sex and socioeconomic status; to learn about the pitfalls and challenges in the implementation of cardiovascular health guidelines for the management of acute coronary syndromes; and to highlight the potential implementation of different cardiovascular health programmes and strategies to confront treatment disparities and barriers in the setting of acute coronary syndromes.

This session is proposed in the local language.

**Categories:** Online Live, Spotlight of the Congress.
